A;Description: catalyzes the proteolytic activation of coagulation factor X in the present A;Pathway: blood coagulation intrinsic pathway
C;Superfamily: coagulation factor X; EGF homology; Gla domain homology; trypsin homology
C;Reywords: beta-hydroxysapartic acid; blood coagulation; calcium binding; carboxyglutam:
F;1-146/Product: coagulation factor IXa light chain #status experimental <ALC>
F;1-45/Domain: Gla domain homology (fragment) <GLA>
F;51-82/Domain: EGF homology <EGI>
F;147-181/Domain: EGF homology <EGI>
F;147-181/Domain: activation peptide #status experimental <APT>
F;182-416/Product: coagulation factor IXa heavy chain #status experimental <AHC>
F;182-4409/Domain: trypsin homology <TRY>
F;182-4409/Domain: trypsin homology <TRY>
F;18-23/Sinding site: carbohydrate (Ser) (covalent) #status experimental
F;64/Modified site: erythro-beta-hydroxyaspartic acid (Asp) #status experimental
F;158,168,173,261/Binding site: carbohydrate (Asn) (covalent) #status experimental
F;222,270,386/Active site: His, Asp, Ser #status predicted
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       Biochem.
